**OPCEA**

**2026  
Membership  
Guide**  
38th Edition

# Message from the OPCEA Chair

---

It is an honour to serve OPCEA members as the 2026-2027 Chair.

The Ontario Pollution Control Equipment Association (OPCEA) is the largest waste-

water equipment supplier association in Canada, representing more than 105 member companies that manufacture and distribute equipment and services supporting environmental protection across Ontario.

The 2026 OPCEA Annual Membership Directory remains a key resource for water system owners, providing up to date contact information and listings for equipment, products, and services offered by OPCEA member companies. The directory enables owners, OROs, and operations staff to identify qualified vendors by manufacturer name, product trade name, or trademark.

Hard copies are distributed to thousands of environmental professionals across Ontario, and a digital version is available at our website ([www.opcea.com](http://www.opcea.com)). It continues to be the most comprehensive guide for sourcing pollution control equipment and services for both municipal and industrial applications.

Our annual exhibition returned in 2025 to RBC Place in London, where OPCEA and the Water Environment Association of Ontario (WEAO) delivered a highly successful conference and exhibition from April 13-15, 2025. The 2026 Exhibition and conference took

place at the Niagara Falls Convention Centre from April 12-14.

The Ontario Municipal Water Association/OPCEA Education Days and Tradeshow will be held June 4-5, 2026, in Rama, Ontario. This event provides members with an additional annual opportunity to showcase their products/services.

OPCEA's annual golf tournament will take place on May 28, 2026 and registration is available through our website. Members will have an opportunity to connect with clients and colleagues. We look forward to another excellent event and the friendly competition it brings.

For information on all OPCEA events and updates on member companies, please visit our website at ([www.opcea.com](http://www.opcea.com)) and follow our MEMBER SPOTLIGHTS on OPCEA's LinkedIn page.

The OPCEA Board of Directors consists of dedicated volunteers who work diligently on behalf of our member companies. I would like to thank Kris Montgomery for his service as Chair over the past year, as well as our board members and administrative staff for their ongoing commitment and support.

Thank you all for your continued dedication.

**Amr Melligy**

## DIRECTORY OF MEMBERS

### ACCESS INDUSTRIAL

#### **ACCESS INDUSTRIAL INC.**

5205 Timberlea Blvd.

Mississauga, ON L4W 2S3

**T:** (905) 602-4020

**E:** sales@accessindustrial.com

**W:** www.accessindustrial.com

**Contact:** Paul Vetter, President

**Products/Services:** Design, engineering, inspection and fabrication of FRP access platforms, railings, ladders and other FRP structures for corrosive environments.

#### **ACG-ENVIROCAN**

7-131 Whitmore Road

Woodbridge, ON L4L 6E3

**T:** (905) 856-1414

**E:** sales@acg-envirocan.ca

**W:** www.acg-envirocan.ca

**Contact:** Mike Nelson

**Products/Services:** We distribute and represent equipment and systems for water, wastewater and stormwater treatment, including headworks screens/compactors, septage receiving systems, sewage/sludge grinders, grit removal systems, fine & coarse bubble aeration systems, jet aeration & mixing, mechanical aerators, P.D., centrifugal & turbo blowers, tertiary filters, centrifuges, clarifiers, rotary drum screens & thickeners, belt presses, sludge handling, storage and conveying systems, screenings conveyors, tank covers, membrane filtration, MBR, MBBR, SBR systems, aerobic granular activated sludge process, ozone systems, evaporators, advanced lagoon treatment technologies, advanced sewer line

assessment technology and high efficiency mixing technology. We service both the industrial and municipal markets. We also sell and rent area/velocity and insertion mag flow meters to municipalities, consulting engineers and flow study service providers.

#### **Principals/Trade Names Represented:**

Apmixing Ltd. – Advanced Process Mixing, Amwell, Andritz Separations, Aqua Aerobic Systems, Aqua Nereda®, Delco Water, Duperon, ECS Environmental, Flow-Tronic, Fuji Ozone, Howden, Hydreka, Hydro Quip, InfoSense, SL-RAT, RATS, Inc., Inovair, IPEX, JPS Industries, JWC Environmental, Lakeside Equipment, Mabarex, Metawater, MLM Conveying Systems, Orthos Liquid Systems, Pureflow Filtration, RPS Engineering, SSI Aeration Inc., TNE Turbo and Energy, Triplepoint Environmental Technologies, Turblex, Viking Chains-Enviro Group, Walker Process, Pinnacle Ozone Systems.

#### **ACI INSTRUMENTATION LTD.**

14 Gormley Industrial Avenue, Unit 5

Gormley, ON L0H 1G0

**T:** (905)888-0063

**E:** sales@aciltd.ca

**W:** www.aciltd.ca

**Contact:** Angelo Valente, President

**Products/Services:** ACI markets, supports and applies a broad range of process control instrumentation field devices as a manufacturer's representative in Ontario. Products include magnetic, vortex, coriolis, variable area, inline and clamp-on ultrasonic flow meters, non contact radar and ultrasonic level measurements, smart pressure transmitters, gas detectors and struvite scale prevention control.

#### **Principals/Trade Names Represented:**

Krohne, Pulsar Measurement, Autrol, Hydroflow, Bulk Pro Systems, Precision

Digital, Thayer Scale, SMC/MSA, Signal Flow, FluidiO.

### ACTEMIUM TORONTO SUMMA

401-1875 Buckhorn Gate  
Mississauga, ON, L4W 5P1

T: (905) 678-3388

E: sales.summa@actemium.com

W: www.actemium.ca

Contact: Sales team

**Products/Services:** We are a market leader in system integration within the municipal water and wastewater industry. We pride ourselves on our expertise, years of service and our total solutions. We offer SCADA system design, design build, automation solutions, programming management, instrumentation, field technical services, SCADA preventative maintenance and 24/7/365 support.

### ACTIZYME PRODUCTS LTD.

1540 Matthew Brady Blvd, Unit 4  
Windsor, ON N8S 3K6

T: (800) 555-2585

E: ontario@actizyme.com

W: www.actizyme.com

Contact: Clint Attard

**Products/Services:** Acti-Zyme is an enhanced biocatalyst product for improved breakdown and digestion of built-up sludge in wastewater systems. Acti-Zyme's consortium contains over 70 different strains of bacteria that tackle multiple pollutants and environments.

**Principals/Trade Names Represented:** ActiZyme Products.

### ADS ENVIRONMENTAL TECHNOLOGIES

1 Whitmore Road, Unit 27  
Vaughan, ON L4L 8G4

E: cking@idexcorp.com

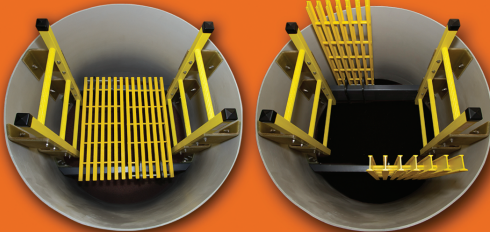

W: www.adsenv.com

**Products/Services:** Flow monitoring, inflow and infiltration studies, level and CSO monitoring.

*continued overleaf...*

**ACCESS**  
INDUSTRIAL  
WWW.ACCESSINDUSTRIAL.COM  
1-888-557-0070

Designed for corrosive environments in sewer, watermain and stormdrain manholes, Access Industrial's **fiberglass safety landings** offer **unparalleled performance** without degradation. Contact us to learn more about our **FIBERGLASS SAFETY LANDINGS**.

# NOW

Today → Indefinitely

Fiberglass safety landings are impervious to alkaline corrosion caused by water-saturated concrete and road salts, as well as stress corrosion caused by hydrogen sulfide.

*this is Pete today*

*So what happened to Pete?? Knowledge. Pete loves his job. He's relaxed, knowing that Access Industrial has his back.*

# THEN

Past 100 years

Aluminum or steel safety landings can become a safety hazard due to corrosion and may have to be replaced several times over the life of the manhole.

*Pete doesn't really like his job. He's broken his leg and twisted his ankle from corroded ladders but each day or week he has to venture down another hole and hope everything will be ok...*

**AERZEN**  
EXPECT PERFORMANCE

**AERZEN CANADA INC.**

586 Tradewind Drive, Unit 4

Ancaster, ON L9G 4V5

**T:** (437) 703-7630

**E:** vincent.mezzagno@aerzen.com

**W:** www.aerzen.com/canada

**Contact:** Vincent Mezzagno, Regional Director - Central

**Products/Services:** We provide high-efficiency oil-free PD blowers, hybrid, and high-speed turbo technology alongside field service, expert repairs, and rental solutions for water treatment and biogas applications, ensuring peak reliability and the lowest life-cycle costs through our three national branches, including our central office in Ancaster serving the Ontario/GTA area.

**ALFA LAVAL INC.**

101 Milner Avenue

Toronto, ON M1S 4S6

**T:** (416) 299-6101

**E:** marc.hunt@alfalaval.com

**W:** www.alfalaval.ca

**Contact:** Marc Hunt, Business Development, Wastewater

**Products/Services:** Centrifuges for thickening and dewatering, rotary drum thickeners, spiral and wide gap heat exchangers for digester heating and cooling, tertiary filtration.

**Principals/Trade Names Represented:** Alfa Laval Inc.

**ALLTORK ACTUATION, DIVISION OF VL MOTION SYSTEMS INC.**

212 Wyecroft Road, Units 23-25

Oakville, ON L6K 3T9

**T:** (905) 842-0244

**E:** jcarney@alltork.com

**W:** www.alltork.com

**Contact:** John Carney, President

**Products/Services:** Alltork Actuation, a Division of VL Motion Systems, specializes

in the sales, service and support of "Best in Class" manufacturers in the field of valve and gate actuation. VL Motion Systems specializes in gearmotor solutions for all applications.

**AQUASTORE CANADA EAST INC.**

643 Railroad Street, Box 354

Mount Brydges, ON N0L 1W0

**T:** (226) 970-5853

**E:** bmcintee@aquastorecanada.com

**W:** www.aquastorecanada.com

**Contact:** Brad McIntee, VP-GM

**Products/Services:** Authorized constructor and Eastern Canadian supplier for CST bolted storage tank and aluminum cover systems. Turnkey installation of glass-fused-to-steel and epoxy-coated tanks for potable water, wastewater, sludge and industrial applications. Services include erection, rehabilitation, inspections, servicing and cover replacement.

**Principals/Trade Names Represented:** CST Industries, Aquastore, TecTank.

**AQUA TECHNICAL SALES INC.**

55 Undermount Avenue

Hamilton, ON L8P 3Z7

**T:** (905) 645-4140

**E:** brian.gage@aquatsi.com

**W:** www.aquatsi.com

**Contact:** Brian Gage, President

**Products/Services:** Providing water and wastewater treatment solutions for the municipal and industrial market, representing Smith and Loveless Inc. (www.smithandloveless.com)

**Principals/Trade Names Represented:** Smith and Loveless, Titan Membox, Everlast Pump Stations, Pista Grit Traps, Schloss Headworks, Oxigest, Expeller Impellers, Envisor, Vio.

and more...

# LEADERS IN INNOVATION AND SUSTAINABILITY

## PRIMARY TREATMENT

- Complete line of fine screening equipment
- Self-cleaning perforated plate screens
- FlexRake® front-raked fine screens
- FlexRake® front-raked bar screens
- FlexRake® Low Flow
- Self-Cleaning trashracks
- Muffin Monster® grinder (for sludge, scum, septage, screenings & wastewater)
- Channel Monster® grinder for pump stations and sewage treatment plant headworks
- Honey Monster® septage receiving station
- Auger Monster® fine screen system
- Monster® fine screen & band screen perforated plate fine screens with 2, 3 & 6mm perforations
- Screenings washer/compactors
- Rotating drum screens (down to 2mm perfs)
- Raptor screenings washer press
- Grit removal
- Rotary drum screens

## SECONDARY TREATMENT

- AquaNereda® Activated Granular Sludge Technology
- Aqua-Jet® direct drive floating aerator
- Aqua DDM mechanical floating mixer
- Fine bubble aeration systems using membrane or ceramic diffusers with gas cleaning systems
- Stainless steel coarse bubble aeration systems
- Multi stage activated biological process (MSABP)
- Two & three rotary lobe P/D blowers
- Centrifugal multistage blowers
- Hybrid screw/lobe compressors
- Floating diversion curtains (for aerated lagoons, activated sludge systems & clear wells)
- Subsurface jet aeration/mixing systems
- Spiraflo & Spiravac peripheral feed clarifiers
- Closed loop reactor oxidation ditch systems
- Rotary brush aerators
- High efficiency single stage integrally geared blowers
- Direct drive turbo type blowers
- Aeration system controls & instrumentation
- Chain & flight clarifier systems & components (plastic, cast iron or stainless steel)
- Half bridge, centre feed, circular clarifiers
- Spiral blade clarifiers
- Lagoon aeration & mixing systems

## TERTIARY TREATMENT

- AquaDisk® - cloth media tertiary filter
- AquaDiamond® tertiary cloth media for traveling bridge filters
- Filter Underdrain Systems

## HIGH EFFICIENCY MIXING TECHNOLOGY

- High Performance Centrifugal Dispersing Impeller (HPCDI™) mixers

## BULK MATERIAL HANDLING

- Shaftless & shafted screw conveyors
- Screw pumps (open & closed designs)
- Industrial grinders

## ADVANCED LAGOON TREATMENT TECHNOLOGIES

- Ares™ Wastewater Lagoon Aeration
- NitriOx® Cold Weather Lagoon Ammonia Removal
- LRAS™ Advanced Lagoon Treatment
- PhosBox Lagoon Phosphorus Removals

## TANK COVERS & DOMES

- Aluminum geodesic domes
- Flat aluminum and FRP tank covers
- Aluminum channel and launder covers
- Aluminum hatch covers

## DISINFECTION

- Ozone disinfection systems

## BIOSOLIDS PROCESSING/HANDLING

- Sludge storage bins & live bottom dischargers
- Rotary Drum Thickeners
- Gravity Belt Thickeners
- Belt filter presses & screw presses
- Centrifuges for thickening & dewatering
- Shaftless and Shafted Screw Conveyors

## ODOUR CONTROL

- Biofilters
- Bioscrubbers
- Carbon adsorbers
- Chemical wet scrubbers

## FLOWMETERS

- Open channel flow metering (portable & permanent); wireless data transmission
- Non-contact radar & submerged sensor area velocity flow metering (portable & permanent); wireless data transmission
- Insertion mag flow meters with wireless data transmission
- Data loggers with wireless data transmission

## INDUSTRIAL WASTEWATER TREATMENT

- Industrial wastewater treatment systems
- Coalescing oil/water separators
- Inclined plate clarifiers

## PACKAGE TREATMENT PLANTS

- Package potable water treatment plants
- Package sanitary wastewater treatment plants
- Package industrial wastewater treatment plants
- Package industrial process water treatment plants

## WATER TREATMENT

- Reverse Osmosis, UF, & Nanofiltration Membrane Systems
- Filter Underdrain Systems

## ADVANCED INDUSTRIAL STORMWATER TREATMENT SYSTEMS

- Removal of free oil, TSS, metals, nutrients, BOD/COD, bacteria, toxic organics, floatable trash

# RYDLYME<sup>®</sup>

World's Leading Biodegradable Descaler

## STRUVITE REMOVAL

BIODEGRADABLE

SAFE

EFFECTIVE

### DISSOLVE THE TOUGHEST MINERAL DEPOSITS

For nearly 80 years, **RYDLYME** dissolves water scale, lime, struvite, vivianite, calcite and rust deposits safely, quickly and effectively! This revolutionary descaler is fortified with a complex formula of wetting and penetrating agents that dissolve mineral deposits into solution for quick and easy disposal.

Often imitated - never duplicated. Imitation is the sincerest form of flattery, but in this industry - safety is our number one priority. We demonstrate that **RYDLYME** is safe enough to hold in your open hand - but, please do not attempt this with other descalers without first thoroughly consulting their most current SDS. Use **RYDLYME** anywhere that deposits have developed.

## Your Preferred Specialist in Water and Air Treatment Services

### Who We Are

Continental Carbon Group is a turn-key solutions provider for air, water, and wastewater solutions within the municipal, industrial, and construction industries. We have the technology, resources, and expertise in designing, manufacturing, and implementing innovative air and water treatment solutions. Our dedicated and experienced team of engineering, project management, and field service personnel provide our customers with high quality solutions and services.

### Why Choose Us

- ✓ OVER 15 YEARS OF INDUSTRY EXPERIENCE
- ✓ PROVEN TRACK RECORD OF RESULTS
- ✓ COR CERTIFIED

### Our Services

#### MEDIA CHANGEOUTS

MEDIA REMOVAL, INSTALL, & SUPPLY

#### H2S REMOVAL SYSTEMS

DEEP BED OCU, TITAN, PHOENIX

#### FILTRATION SYSTEMS

CUSTOMIZABLE PRESSURE FILTERS

#### IRON & MANGANESE REMOVAL

#### PILOT TESTING & FILTER AUDITS

**Products/Services:** We are a leading source for MRO equipment and supplies for the water and wastewater industry. Thanks to a nationwide distribution network and extensive selection of over 64,000 products, 95% of USABlueBook customers receive in-stock orders in 1–2 days. Request your free catalog today.

## VAHN-TECH INTERNATIONAL INC.

10-755 Queensway East

Mississauga, ON L4Y 4C5

T: (416) 342-0001

E: [info@vahn-tech.com](mailto:info@vahn-tech.com)

W: [www.vahn-tech.com](http://www.vahn-tech.com)

**Contact:** Collins Rexford Ankamah

**Products/Services:** We develop, manufacture and market VAHN-TECH

branded valves, actuators, automatic control valves and accessories for water and wastewater and a variety of industrial applications. As a customer-focused organization, we are a unique company within the flow control industry: 'vt' brand = high quality certified products, quick response, competitive pricing, reduced delivery time and flexibility to customize products to customer requirements.

**Principals/Trade Names Represented:**  
VAHN-TECH.

## **VECTOR PROCESS EQUIPMENT INC.**

5889 Summerside Drive  
Mississauga, ON L5M 6L1

**T:** (416) 527-4396

**E:** info@vectorprocess.com

**W:** www.vectorprocess.com

**Contact:** André Osborne, Director

**Products/Services:** Centrifugal pumps, rotary lobe pumps, screw pumps, peristaltic hose pumps, pump stations, slide gates, strainers, bar screens, perforated screens, washer-compactors, screw conveyors, grit collectors, clarifier & thickener mechanisms, chain & flight collectors, tube settlers, DAF, Suspended Air® Flotation (SAF), fine bubble diffusers, tank mixers, FBBR, MBBR, ammonia removal, blowers, aeration valves & controls, UV disinfection, digester covers & mixers, biogas safety equipment, heat exchangers, sludge dewatering presses, centrifuges, odour control, gas scrubbers, emergency gas shut-off actuators, digital scales, vacuum chemical feeders, chlorine dioxide solution generators, chemical feed systems, polymer makedown systems, composting systems.

### **Principals/Trade Names Represented:**

AP Integrated Systems, Aqua Equip Technologies, Archer Separation, BacTee Systems, BDP Industries, Binder Group, Cornell Pump Company, Dakota Pump, DryVac Environmental Services, Dynamix Agitators, Enaqua, Eurus Blower, Ford Hall Company, Gooch Thermal Systems, Granzow, HAUS Centrifuge Technologies, Headworks International, Komline-Heron, Hydria Water (sedimentation products), JCS Industries, Kusters Water, Olympus Technologies (OTI), OTT Group, Plate Concepts, PureAir Filtration, R.P. Adams, Rodney Hunt, Schreiber (a Parkson brand),

Shand & Jurs, Spiralengineering, Swaby Lobeline, Technologies Écofixe, TwinOxide, UGSI Chemical Feed (A cleanwater1 Company), United Blower (UBI).

## **VEOLIA WATER TECHNOLOGIES CANADA**

3239 Dundas Street West  
Oakville, ON L6M 4J4

**T:** (905) 286-4846

**E:** marc.lariviere.mourad@veolia.com

**W:** www.veoliawatertech.com

**Contact:** Marc Lariviere, VP Municipal Business Development

**Products/Services:** We have helped Canadian municipalities and industries solve water, wastewater and sludge treatment challenges since 1948.

We design, manufacture and service treatment solutions from mobile and urgent temporary plants to permanent installations. By delivering solutions that minimize resource consumption and maximize resource recovery, we help customers achieve sustainability targets.

## **VICTAULIC COMPANY OF CANADA**

500 Deerhurst Road  
Brampton, ON L6T 5H9

**T:** (416) 579-3743

**W:** www.victaulic.com

**Products/Services:** Full mechanical and process system solutions provider, from couplings, fittings, and valves, to full system design and engineering services.

**VISSERS SALES CORP**  
PUMPS • MIXERS • CONTROLS • SYSTEMS

## **VISSERS SALES CORP.**

220 Industrial Parkway South, Unit 20  
Aurora, ON L4G 3V6

**T:** (905) 841-4073

**E:** sales@vissers.on.ca

**W:** www.visserssales.com

**Contact:** Greg Vissers, President

**Products/Services:** Sales and service of most types of pumps and mixers. Controls for pH, ORP, and flow. Packaged systems for booster pumping, chemical metering, and chemical transfer.

**Principals/Trade Names Represented:** Grundfos, Paco, Pulsafeeder, The DICE, March Pumpen, TEF-MAG, VANE-MAG, Cleveland Eastern Mixers, Lutz-Jesco, Vanton, Zoeller, Micropump, Griffco, PSC Pressure Systems.

## WASTECORP. Pumps®

### WASTECORP PUMPS INC.

50 Shorncliffe Road  
Toronto, ON M8Z 5K1

**T:** (416) 233-3000

**E:** info@wastecorp.com

**W:** www.wastecorp.com

**Contact:** Marc Johnson, Manager

**Products/Services:** We are a premium OEM manufacturer of pumping equipment for the municipal and industrial sector. Offering a variety of positive displacement and solids handling centrifugal pumps, we provide complete turnkey solutions for consulting engineers and plant operators alike.

**Principals/Trade Names Represented:**

Sludge Pro double disc pumps, Sludge Master plunger pumps, Mud Sucker diaphragm pumps, Super Duty vacuum pumps, Trash Flow dry prime pumps, Trash Hog centrifugal pumps.

### WESTECH INDUSTRIAL LTD.

639 Sovereign Road, Unit 1  
London, ON N5V 4K8

**T:** (905) 802-6070

**W:** www.westech-ind.com

**Products/Services:** Biogas digester/landfill gas control equipment including open and enclosed waste gas burner systems, flame arresters, flame traps, digester

roof relief valves, 3-way valves and manhole covers, back pressure regulators, moisture/sediment/drip traps, digester gas conditioning, H2S removal and digester gas dryers.

## WOLSELEY

### WOLSELEY CANADA INC.

210 Rexdale Blvd.

Etobicoke, ON M9W 1R2

**T:** (416) 635-7822

**E:** linda.cooke-weaver@wolseleyinc.ca

**W:** www.wolseleyinc.ca

**Contact:** Linda Cooke-Weaver, National Sales Manager

**Products/Services:** Specializing in supplying traditional waterworks products, as well as inside the fence with process mechanical PVF products and exclusive distributor to Fab-Tech (Exential) fluoropolymer lined SS duct for odour control & GRE-GRP pipe from Future Pipe Inc. Ontario distributor for Master Meter residential, commercial and industrial meters.

**Principals/Trade Names Represented :**

Future Pipe, Fab-Tech (Exential), Master Meter, Mueller, Robar, IPEX, Urecon, FNW, Georg-Fischer, Teekay, US Pipe.

### WTP EQUIPMENT

83 Nuggett Court, Unit 2

Brampton, ON L6T 5H2

**T:** (905) 799-3403

**E:** sales@wtpcorp.com

**W:** www.wtpcorp.com

**Contact:** PDG, General Manager

**Products/Services:** Canadian manufacturer of wastewater treatment equipment, including mechanical bar screens, deep well screens, continuously cleaned fine and perforated plate screens, conveyor screens, screenings compactors, screw conveyors, aerated tank and vortex grit chamber grit collectors, grit classifiers, sludge and scum removal systems. Customer service is provided from our Brampton, ON facility.

**Smarter Data. Better Sewers.**  
Elevate Your Asset Management with the  
Data-Driven Tool for Modern Municipalities

Whole-network programmatic sewer line flushing is very costly and is a slow process. Rapid Assessment Technology Services (RATS Inc.) has redefined the assessment process by providing municipalities with comprehensive acoustic network condition data in a fraction of the time and cost required by the old costly flushing methods.

The SL-RAT acoustic technology is a tool to triage municipal wastewater collection systems to identify blockage conditions and reduced carrying capacities. This smart information allows the municipality to identify systemic issues and swiftly react through various means of interventions to reduce the potential of failure (i.e. SSO spills, basement flooding). This saves the municipality time,

money and resources and allows for: 1) prudent sewer system maintenance and level of service, 2) informing on asset management best practices, and 3) regulatory compliance.

Municipalities now can focus their high-cost resources only on the small percentage of the network that represents a potential service disruption or imminent failure.

**Cut operational costs and accelerate your annual maintenance.**  
Call RATS today to see how.

# ContraBlock Evo

## The ultimate solids handling system

Maximize efficiency in wastewater management with the ContraBlock Evo hydraulic system. This innovative solution features advanced clog resistance, cutting energy costs while maintaining pump performance. Built on over 50 years of evolution, from the first non-clog design in 1967 to the cutting-edge ContraBlock Evo in 2023, it's technology you can trust to keep your systems running smoothly.

Become more efficient with ContraBlock Evo:  
[go.sulzer.com/makingwaterwork/contrablock-evo](https://go.sulzer.com/makingwaterwork/contrablock-evo)

**1967**  
Albert Blum, founder of ABS, patents the first non-clog semi-open impeller, revolutionizing pump design for handling dirty liquids. Patent No. 3,447,475

**1980s**  
Sulzer introduces spiral groove wear plate, engineered to efficiently expel rags.

**2009**  
Sulzer launches ContraBlock Plus hydraulics, improving anti-clogging performance.

**2023**  
Sulzer unveils the ContraBlock Evo, featuring a cutting-edge design for superior clog resistance.

# SYNTEC

VALVES • INSTRUMENTS • CONTROLS

Your one source for valves and instruments for all Municipal Water and Wastewater works in Ontario since 1993

## TRUeline®

VALVE CORPORATION

Trueline Valve designs and manufactures AWWA, Bonetted and Rectangular Knife Gates Valves along with CGA Ball Valves and many other valves for municipal and industrial applications. Available exclusively from Syntec Process Equipment Ltd.

## VAL'MATIC®

Val-Matic designs and manufactures the highest quality AWWA Butterfly, AWWA Ball, AWWA Check, AWWA Plug, AWWA Air and AWWA Inflow Preventor Valves. Available exclusively from Syntec Process Equipment Ltd.

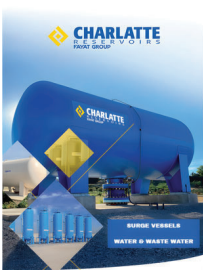

## Fontaine Aquanox

Water Control Gates

Fontaine is 100% Canadian owned and operated, manufacturing AWWA C561 Slide Gates, Channel Gates, Weir Gates and Flap Gates to the highest standards and quality in Sherbrooke, Quebec. Now available exclusively from Syntec Process Equipment.

## SINGER

Singer's Dynamic Lifter is a Pilot Operated Pressure Relief Valve made exclusively for Sewage Applications. End-Users have the ability to cycle and test the valves in a sanitary manner with an external pressure source. The valve opens fully on an overpressure event to relieve high pressures.

## CHARLOTTE AMERICA

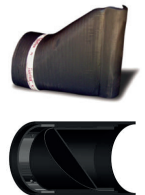

A FAYAT GROUP

Charlotte America Surge Relief Tanks provide reliable protection against damaging pressure surges in water and wastewater systems. Built for fast response and long-term reliability, these tanks help maintain system stability while protecting pumps, pipeline and critical assets.

## Tideflex®

Technologies

Tideflex is the world leader in the design and manufacture of all rubber Duckbill & Ultraflex Checkmate Check Valves. They also design and manufacture leading non-clog channel and coarse bubble Aeration Systems for High Solids Mixing.

# Actiflo®

## Your Best Ally Against Climate Change

- **Flooding:** treats successfully sudden and extreme TSS and turbidity peaks.
- **Forest Fires:** tackles very high TSS and DOC from ashes runoffs.
- **Algae Blooms:** removes efficiently blue-green algae and toxins.
- **Wet Weather:** treats sewer overflows and WWTP bypasses to high quality standards.
